Sub:- Regarding Adequate Traffic Calming Measures taken by Road Construction Department in the state of Bihar on roads Merging in or Diverging from National & State Highways and at all other required places.

Sir,

With reference to letter no.30/CoRS/2014 dated.28.03.2017 of Hon'ble Supreme Court Committee on Road Safety and on the subject noted above, I am directed to say that provision of Road Safety is made under section -V, part-C, ordinary maintenance specification Clause C 4.2 of M.B.D. under OPRMC Package. The department has also instructed to take traffic calming measures etc as per IRC Standards vide letter No.12 (E) dated 02.01.2017.

The department assumes that adequate traffic calming measures have been taken by all of you at required places.

There are number of roads merging in or diverging from National Highways and State Highways. The department believes that installation of speed breaker/speed humps, installation of informatory sign ahead of humps, marking of these humps as per IRC guidelines and also installation of stop sign and stop marking and other required measures as per IRC to reduce the speed of vehicle and to control the traffic flow have been completed by you on roads merging in or diverging from National and State Highways.

The status report regarding traffic calming measures have been requisitioned by Nodal Officer (Road Safety Cell)- cum-Director-TTRI, Bihar, Patna vide his letter No.187 dated 23.02.2017 which is still unattended.

Therefore you are requested to submit status report through proper channel to Road Safety Cell on above in the attached Proforma immediately.

Enclo. as above

Yours faithfully,
